

JANIE RUDDY, M.Ed.

ADOPTION & PROFESSIONAL SERVICES LEADER | K-12 SaaS | AI-ENABLED SERVICE DESIGN

Palm Coast, FL | (386) 986-9830 | ruddy4learning@gmail.com | linkedin.com/in/janie-ruddy

EXECUTIVE PROFILE

EdTech services leader who builds the operating systems behind adoption: client journeys, service models, staffing, pricing, performance measures, and feedback loops that turn implementation into sustained use. 20+ years across K-12 and education technology, including leadership of distributed SaaS services teams and multiple specialized Professional Services functions supporting district and statewide clients. Led a 25-member delivery organization, scaled a global subscription learning model to 120,000+ participants, maintained a 44% service-delivery margin, and increased post-service product utilization 22%. Uses AI and automation as operating leverage - standardizing workflows, reducing administrative effort, and preserving human judgment in client-facing work. Current school-board service adds a district-side view of funding cycles, policy change, technology adoption, and executive decision-making.

CORE CAPABILITIES

Platform Adoption Strategy | Professional Services & Implementation | Service Packaging, Pricing & Margin | Utilization & Capacity Planning | Client Health Metrics & Reporting | AI-Enabled Workflow Redesign | Executive District Partnerships | Cross-Functional Product/Revenue Leadership | Change Management | K-12 District Operations

Leadership scope: 25-member distributed delivery organization; blended FTE/contractor models; service KPIs, utilization planning, revenue forecasting, and offering roadmaps.

PROFESSIONAL EXPERIENCE

EVERWAY - Director, Professional Learning (Customer Education & Services) | Remote | Dec 2023 - Dec 2025

Directed national service strategy and delivery for K-12 and higher-education clients using neurodiversity-focused SaaS products.

- Led a 25-member distributed delivery organization supporting 4,600+ annual service hours; established KPIs, quality standards, and review cadences that produced 94% CSAT and 98% client self-efficacy.
- Increased post-service product utilization 22% - measured through educator and student logins, assignment activity, and lesson creation - by redesigning onboarding and adoption pathways across implementation, deployment, training, and consultation.
- Reduced service-quote development time 30% by replacing routine discovery calls with clearly defined SKUs and client-ready shoppable agendas for new and intermediate clients, reserving custom scoping for advanced needs; maintained a 44% service-delivery margin after labor allocation, travel, and technology costs.
- Restored professional-services revenue to approximately 90% of the pre-merger baseline within one quarter by rebuilding Salesforce tracking of purchased versus delivered services, reducing duplicate uncompensated delivery and protecting margin on costly onsite engagements.
- Redesigned service operations using standardized service packages, Salesforce workflows, Zapier automation, and reusable facilitator resources, reducing administrative scheduling and session-preparation time 25% while improving consistency across delivery.
- Built a structured post-service survey and accountability system with team response-rate goals and closed-loop follow-up, contributing to a nearly 20% increase in customer NPS.
- Established a voice-of-customer feedback loop from professional-services sessions to Product, synthesizing facilitator observations and customer sentiment to surface recurring friction, feature needs, and adoption barriers.

INSTRUCTURE (CANVAS) - Senior Manager, Learning Services | Professional Services | Remote | Jul 2016 - Dec 2023

Led specialized Professional Services functions spanning asynchronous services development, instructional design, curriculum alignment, and scalable customer education across K-12, higher education, large districts, and statewide systems.

- Integrated an acquired curriculum review/alignment service into the broader Professional Services organization, standardizing intake, reporting, client communications, and team operating practices.
- Diagnosed a recurring adoption gap after live training and built the Subscription Training Program from concept to scale: secured executive support, aligned Sales, Marketing, and Enterprise Solutions, piloted with focus groups, and established role- and readiness-based learning pathways.
- Scaled the model to 120,000+ active participants and 8% YoY revenue growth; expanded it into partner-authored and custom-branded offerings used in renewal and RFP conversations.
- Represented Professional Services in pre-sales and strategic adoption planning with large districts and statewide systems, shaping service packages and rollout plans around client goals.
- Partnered with Support to analyze recurring ticket themes, then embedded targeted guidance into professional-services sessions and takeaway resources, contributing to a 15% reduction in related support tickets.
- Increased completion of asynchronous professional-services offerings 40% by redesigning content around educator workflows, practical application, and engagement; sustained an 88% year-over-year professional-services repurchase rate by aligning services to ongoing adoption and implementation needs.

- Redesigned curriculum-alignment scoping and quote development, replacing multiple discovery meetings and hourly SME scope review with standardized SOWs and auto-calculated pricing based on curriculum complexity and volume, reducing scoping effort and cost while improving quote consistency.

UNIVERSITY OF SOUTH FLORIDA - Instructional Designer (OPS / Project-Based) | 2026 - Present

- Build workforce and professional-education courses from the ground up in Canvas, translating SME expertise into learning architecture, assessments, activities, and accessible digital content.
- Apply reusable HTML/templates and AI-assisted workflows to increase production speed and consistency across course builds.

ADDITIONAL K-12 LEADERSHIP

FLAGLER COUNTY SCHOOLS - School Board Member, District 3 (Part-Time Elected Role) | Nov 2024 - Present

- Provide governance oversight for district strategy, fiscal accountability, policy, instructional quality, and technology adoption.
- Engage district leaders, other boards, government partners, and community stakeholders; bring a current district-side view of funding cycles, policy shifts, implementation constraints, and educator needs.

FLAGLER COUNTY SCHOOLS - Mathematics & Science Educator / Instructional Coach | 2003 - 2016

- National Board Certified educator; led teacher coaching, curriculum rollouts, blended-learning initiatives, STEM program development, and professional learning, with lesson resources published statewide through CPALMS.

EDUCATION & CREDENTIALS

M.Ed., Educational Technology - American College of Education | **B.S., Middle Grades Science Education** - Fayetteville State University

B.S., Health Care Administration - King's College | National Board Certified Teacher | Scrum Master, Scrum Alliance | Canvas Certified LMS Administrator
